BLOCK CHAIN

1. Online Voting System using Face Recognition and Blockchain
2. Visual Cryptography and Steganography in Blockchain for Secure Banking Transaction Recording
3. Decentralized Identity Verification System using blockchain
4. Blockchain for Enhancing Trust and Privacy in Electronic Know Your Customer
5. Enhanced Blockchain Secure Messaging using XMTP
6. Blockchain-based product authentication and verification System using QR Code Scanning
7. Organic Food Supply Chain Traceability using Blockchain Technology
8. ZVault: A Blockchain-Enabled Web Portal for Secure Document Management
9. VENCO - A Blockchain Based Startup Investment Platform
10. Secured Multi-Layer Voting System using Blockchain
11. Exploring Vulnerabilities in Blockchain-Based Device Networks: How Hackers Can Exploit Computer Vision and Webcams to Gain Unauthorized Access and Compromise Security
12. Food Authentication and Quality Assurance using Blockchain
13. Blockchain Simplified : Helixure's Vision for Security and Transparency
14. A Review Paper on A Blockchain Based Approach for Drug Traceability in Healthcare and Supply Chain
15. Guardians of Democracy : Securing Votes with Blockchain
16. Cryptocurrency Analytics - Bridging Blockchain, AI, and Market Trends
17. E-Voting System using Blockchain and Face Recognition
18. Blockchain-Enabled Authentication for Social Media Platforms
19. ChainMedIQ: Diagnostics Powered by ML and Blockchain
20. Unlocking The Power of Blockchain in Education: Opportunities, Applications, and Challenges
21. A web-based Framework for government tender allocation using blockchain
22. Blockchain technology's potential in supply chain management
23. Industry 4.0's Digital Supply Chain Technologies are built on the Internet of Things, Big Data, Blockchain, AIand Digital Supply Chain, Twin Principles and their difficulties
24. Blockchain-Based Cloud Infrastructure Management: Revolutionizing Security, Efficiency, and Trust
25. Innovations and Challenges in Balancing Blockchain Transparency and Privacy
26. Implementation of SHA256 for NFT Management Using Blockchain
27. Escrow Platform Using Blockchain
28. Blockchain Based Double Layer Data Protection with Enhanced Access Control Mechanism
29. CarBook: Decentralized Ride-Sharing System using Blockchain
30. Drug Tracing System for Pharmaceutical Industry using Blockchain Technology
31. Blockchain-Based Logging to Secure Remote Health Monitoring Against Insider Threats
32. Smart Healthcare Trust Management Using Blockchain and Subarray Algorithms
33. Blockchain-Powered Privacy and Efficiency in Smart Cities
34. Challenges in Blockchain Privacy and Information Retrieval Systems
35. Improving Procedural Efficiency and Cybersecurity with Blockchain-Based REC Systems
36. Securing Cognitive Radio Ad-Hoc Networks with Blockchain Security Models
37. Adoption of Blockchain in Food Supply Chains: Drivers, Benefits, and Challenges
38. Optimizing Emergency Fresh Produce Distribution During Health Crises
39. User Authentication in the Metaverse Using Blockchain Technology
40. Trends in Digital Health: A Bibliometric Analysis of the Health Metaverse
41. Blockchain-Enhanced Authentication for Lightweight Medical Sensors
42. Certifying Eco-Friendly Products Using Blockchain in Competitive Markets
43. Blockchain Smart Contracts for Context-Aware IoT Access Control

44. Case Study: Evaluating Blockchain-Based Genomic Databases like Amazon Biobank
45. Boosting Transparency in Charity NFT Auctions Using Fisco BCOS Blockchain
46. Accelerating Blockchain Consensus with FPGA-Based Optimization
47. Securing Cloud Storage with Dynamic AES and Blockchain Key Management
48. Transforming Supply Chain Management Through Blockchain
49. Improving Permissioned Blockchain Interoperability with Oracle Solutions
50. Blockchain-Powered Microgrid Energy Trading Using Innovative Transaction Models
51. Enhancing Copyright Protection Using Blockchain and Ring Signatures
52. Improving Blockchain Security with Aggregated Zero-Knowledge Proofs
53. PublicEduChain: Secure Educational Data Sharing on Blockchain
54. Using NFTs for Healthcare Product Management, Certification, and Delivery
55. Blockchain for Secure and Transparent Drug Traceability
56. Issuing Tamper-Proof Certificates with Blockchain Technology
57. Blockchain-Based Secure Land Registration System
58. Registering and Managing Complaints Using Blockchain Technology
59. Blockchain for Tamper-Proof Digital Forensic Recordkeeping
60. Preventing Blackmail Through Blockchain-Based Evidence Logging
61. Decentralized Blockchain-Based Platform for Crowdfunding Campaigns
62. Secure Inter-Organizational File Sharing Using Blockchain Technology
63. Electronic Health Records (EHR): A Structured Digital Repository of Patient Health Information
64. Privacy-Preserving Multi-Keyword Top-K Similarity Search Over Encrypted Data
65. Integrating NFTs in the Banking Sector for Enhanced Security and Ownership Tracking
66. Smart Contract for Coffee Transport and Storage with Real-Time Data Validation
67. Secure Message Exchange in Vehicular Energy Networks Using Blockchain and AI-Integrated IPFS
68. Blockchain-Based Secure Storage and Access of Dashboard Camera Footage
69. Systematic Review of Ethereum Smart Contract Analysis Tools
70. Blockchain Applications in Hyperlocal Commerce and Service Delivery
71. Decentralized Blockchain Framework for Managing and Trading AI-Generated Content in the Metaverse
72. Blockchain-Enabled Social Media Platforms: A Conceptual Model and Case Study
